

The Somerset County Park Foundation is a 501(c)(3) created to preserve, support, and promote Somerset County Park Commission programs, facilities, and open space through advocacy and fundraising. The Park Foundation is managed by a nine-member Board of Trustees including one member of the Board of Chosen Freeholders. Foundation funds are used to sponsor, underwrite, support, and promote park activities and recreation. Additional funds raised by the Foundation benefit Somerset County Park Commission through expansion of programs, improvement of facilities, and capital expenditures to enhance access to active and passive recreation opportunities. Programs, such as those conducted by the Therapeutic Recreation department, benefit from the proceeds of the Foundation.

The **Therapeutic Recreation (TR) Department** is dedicated to providing recreation and leisure opportunities for people with developmental disabilities and Asperger's Syndrome. The goal of the TR department is to promote an active leisure lifestyle that improves social, physical, cognitive, and emotional functioning and health while enhancing each participant's abilities. A variety of children, teen, and adult programs are offered that build social skills, improve self-esteem and encourage physical activity in a fun environment. The Therapeutic Recreation Department recognizes that some people with disabilities may choose to participate in local recreation programs and/or camps with persons without disabilities. The TR staff is here to help support inclusion by assisting other Somerset County Park Commission departments and municipal recreation departments with program adaptation or modification, behavior management support, and staff training.

In addition to providing scholarships to both children and adults with developmental disabilities to attend the programs, the Park Foundation has also purchased wheelchair accessible vehicles to be used to transport program participants. Their support has also enabled TR staff to create a handbell choir program, supplement the camp program for funds to conduct trips and schedule camp guests, horticulture therapy programs, purchase horses and adapted equipment for the therapeutic equestrian program, purchase single rider golf carts, purchase an FM system for the hearing impaired, and expand various music, fitness, craft, and other programs.
