

# PICTURES WITH Santa

Santa has set aside some time to meet with children, teens or young adults with disabilities (and their siblings too) and have your picture taken with Santa in a more sensory friendly environment. Santa has made it easier for those who have a hard time waiting in line, may need more time before sitting on Santa's lap or prefer a less noisy environment. While waiting there will be activities which may include spin art, sand art, sensory play stations, and more. There will even be a trackless train ride outside in the park. Each family will receive one picture in a frame. This is a great alternative to the mall.
